# Infikart user guide

Link: <https://192.168.2.245/>

This link will open the home screen, where you will see options to log in, signup, and the admin portal.

**Signup:** If you are a new user to infikart. This option will let you create an account that you can use for purchasing and selling products.

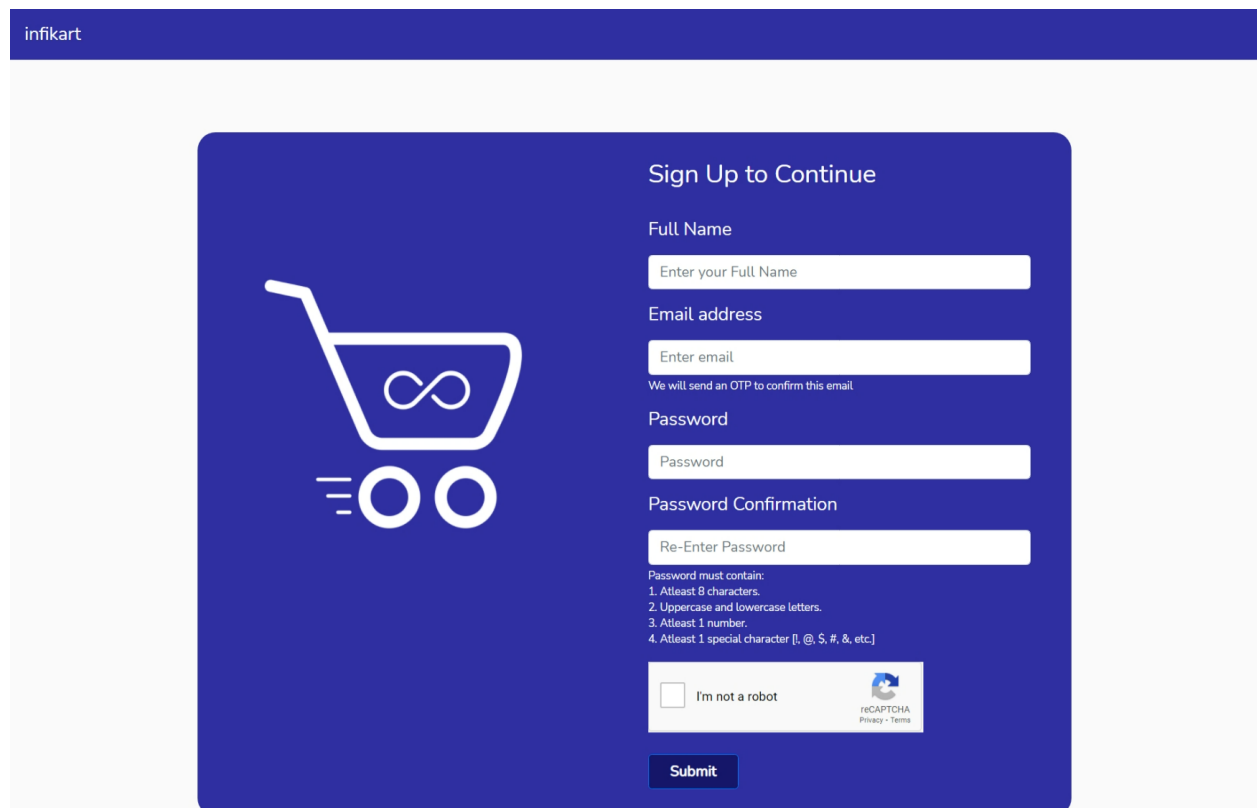

**Login:** After creating an account, you can use this option to enter the credentials you made at signup to avail yourself of services.

**Admin Portal:** This option allows you to log in to the admin portal through the credentials provided later in this document. As an administrator, you

will approve sellers, see or delete their products, and block or unblock specific users.

### If you are a new user

Go to <https://192.168.2.245/signup/> and fill in the details to create an account on the infikart platform. This account will serve both customers' as well as the seller's functionalities. Once an account is created, you will be able to avail yourself of customer-centric functionalities like purchasing products and you will also be able to become a seller if you want to sell products.

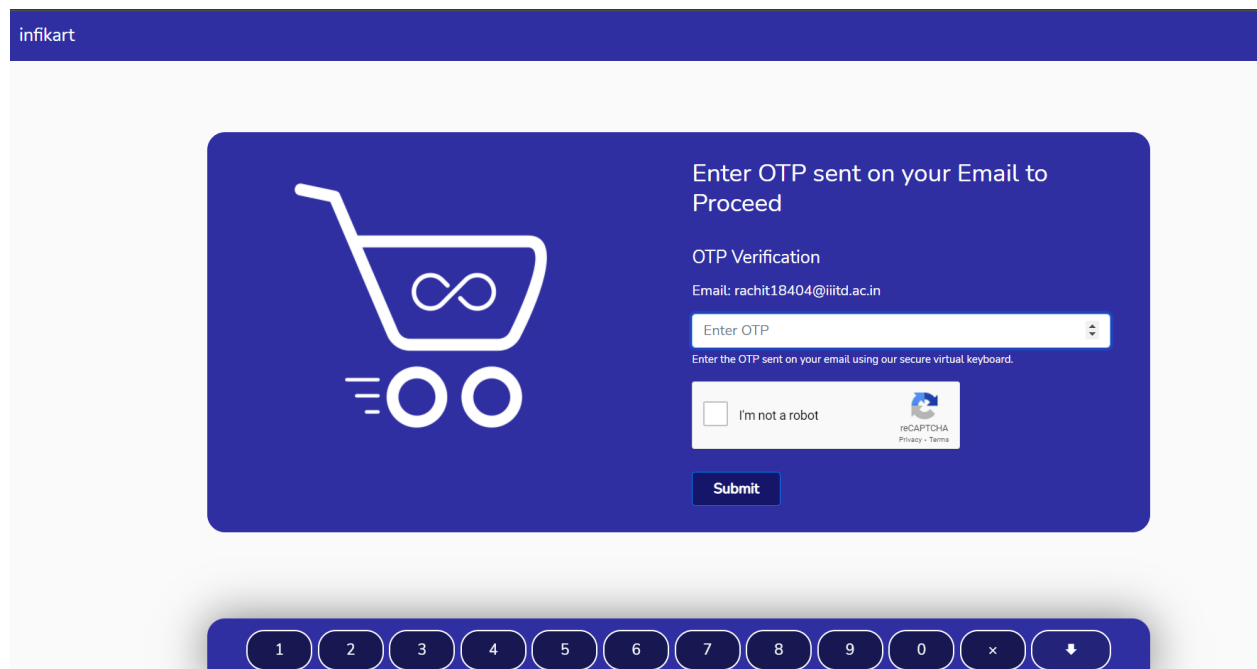

The screenshot shows the 'infikart' website header in a dark blue bar. Below it is a large white box containing a sign-up form. On the left side of the form is a white icon of a shopping cart with an infinity symbol inside. The form is titled 'Sign Up to Continue' and includes the following fields and elements:

- Full Name:** A text input field with the placeholder 'Enter your Full Name'.
- Email address:** A text input field with the placeholder 'Enter email'.
- We will send an OTP to confirm this email:** A small text label below the email field.
- Password:** A text input field with the placeholder 'Password'.
- Password Confirmation:** A text input field with the placeholder 'Re-Enter Password'.
- Password must contain:** A list of four requirements:
  1. Atleast 8 characters.
  2. Uppercase and lowercase letters.
  3. Atleast 1 number.
  4. Atleast 1 special character [!, @, \$, #, &, etc.]
- I'm not a robot:** A checkbox next to the text 'I'm not a robot'.
- reCAPTCHA:** A reCAPTCHA logo and the text 'reCAPTCHA Privacy - Terms'.
- Submit:** A dark blue button with the text 'Submit' in white.

After entering the details you will have to verify your email by entering the OTP sent on the email you entered in the details.

Note that the OTP expires in 5 minutes, so enter the OTP within 5 minutes of receiving. Recaptcha and a virtual keyboard secure the OTP page. The physical keyboard is disabled by default. So the user will not be able to use the physical keyboard to type the OTP until and unless they intentionally want to be insecure and figure out a way to enable it again. Hence, you will have to use our virtual keyboard.

NOTE for attackers: The OTP template UI can be loaded even when you are not logged in (of course) but it is designed in such a way that it will not work if an attacker tries to use it by some other method. So, only loading the UI template of this page will not be considered a bug as it is useless and intentional.

After successful OTP verification, your account will be created, and you will be directed to the login page from where you can simply log in.

## After Sign up

Go to [https://192.168.2.245/login\\_view/](https://192.168.2.245/login_view/) to log in to the system.

The image shows a login interface for a system named 'infikart'. On the left, there is a white logo on a dark blue background consisting of a shopping cart icon with an infinity symbol inside, and two circles below it. The right side of the interface is a dark blue panel with white text and input fields. At the top, it says '\*Email Verified successfully'. Below that is the text 'Log in to Continue...'. There are two input fields: 'Email address' with a placeholder 'Enter email' and a note 'Use the same email you used for Sign Up', and 'Password' with a placeholder 'Password'. A 'Submit' button is located below the password field, along with a link for 'Forgot Password?'. At the bottom, there is a link 'Don't have an account? Register Now' and a button 'Sign in as an Admin'.

As infikart keeps security as the priority, 2-factor authentication is used while logging in. So, you will receive an OTP via email when you log in. Enter that OTP to access the products. Without OTP verification, you will not be able to proceed.

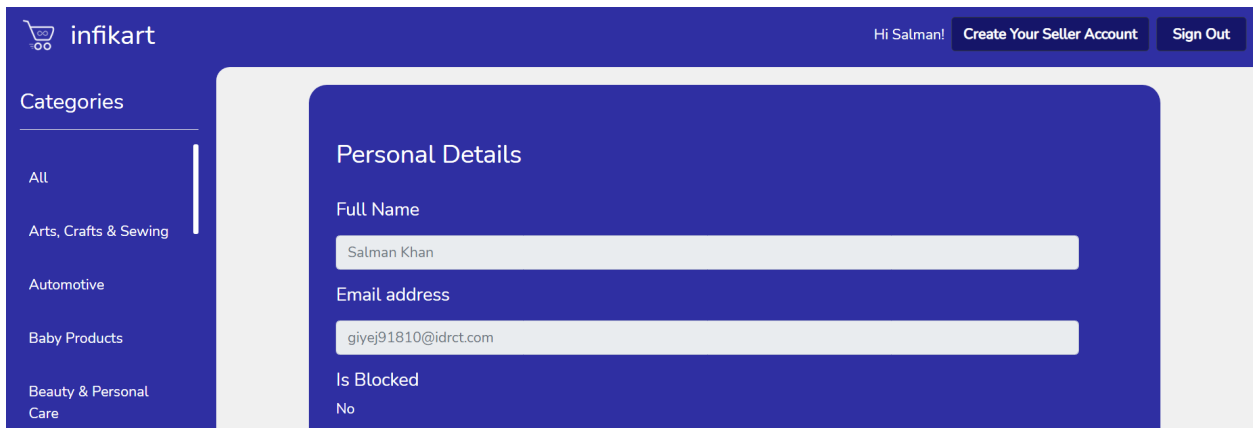

After successful OTP verification enter details and then you will be redirected to the products page where you can search and view products.

If you are already logged in, then you should visit <https://192.168.2.245/products/all/> to see a home page containing products.

From here you can access your profile by clicking on your name on the top navbar.

Your profile will look like this. It contains your personal details that can't be modified and other details like address and phone number that can be modified. Complete your profile here.

You will also be able to access the orders placed by you via your profile.

The screenshot shows the user profile page for 'infikart'. The top navigation bar is dark blue with the 'infikart' logo on the left, the user name 'Hi Salman!' in the center, and two buttons 'Create Your Seller Account' and 'Sign Out' on the right. On the left side, there is a 'Categories' sidebar with a list of categories: 'All', 'Arts, Crafts & Sewing', 'Automotive', 'Baby Products', and 'Beauty & Personal Care'. The main content area is titled 'Personal Details' and contains three input fields: 'Full Name' with the value 'Salman Khan', 'Email address' with the value 'giyej91810@idrct.com', and 'Is Blocked' with the value 'No'.

Update Details

Recent Orders

Order ID	Product	Price	Payment Status
----------	---------	-------	----------------

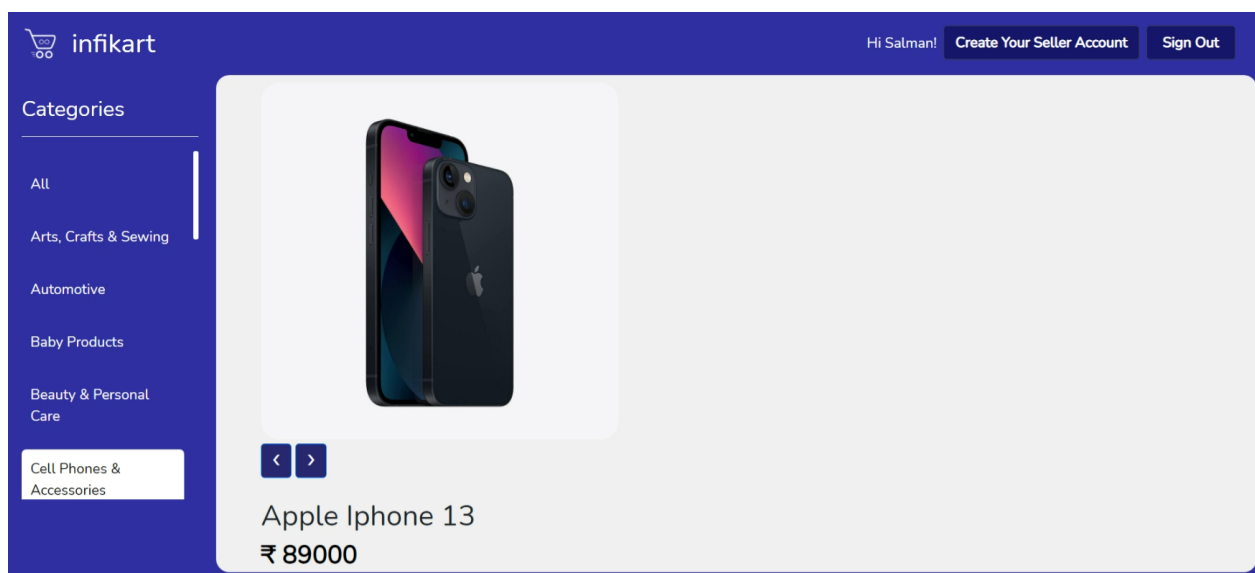

Now, back to the products page

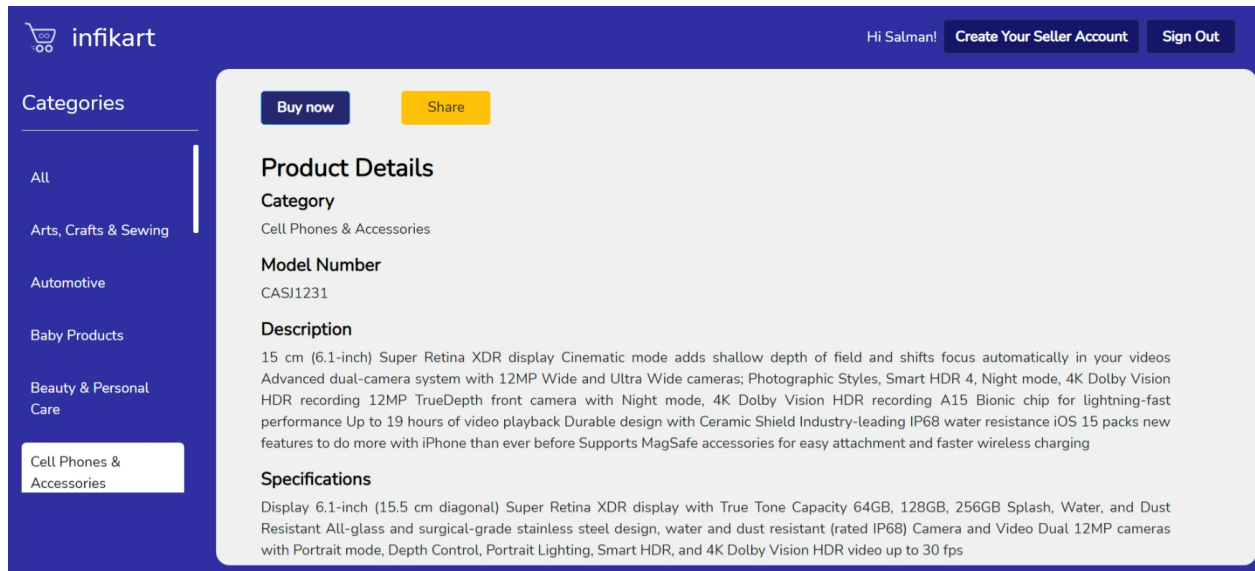

Here you can search to see particular products, and also you can filter out the products based on categories on the left side panel.

Click on the view icon for the product you want to details or buy.

You will see images, price, name, description, specifications, and other details related to the product on this page.

By clicking the share icon, you will get the link for this product and you can share it with your friends.

If you want to buy this product, click buy now.

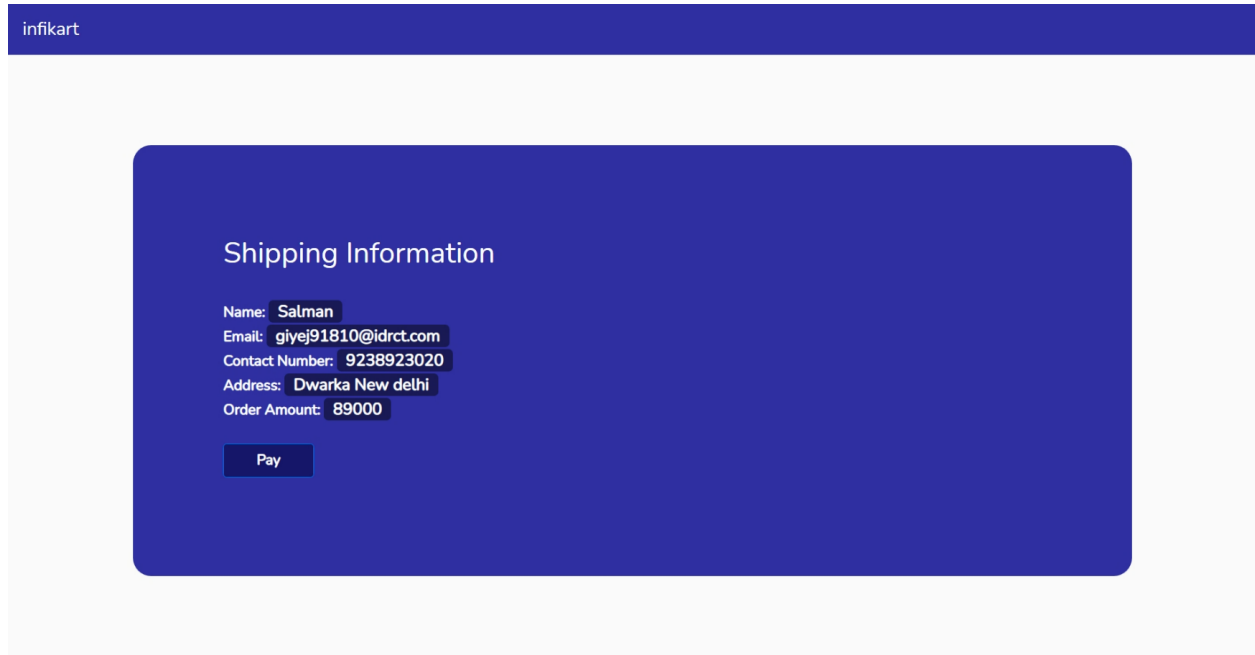

As you might have guessed right by now why our brand name is **“infikart | beyond limits”**, it’s so because we don’t put limits on the number of items or the quantity of the item you can buy. We are different than others because we are always in stock. So, you will enjoy shopping at infikart without limits.

When you click on buy now, if your profile is incomplete and details like phone number and address are missing, you will be redirected to your profile to complete the profile. Fill in your personal information, if you haven’t.

After successfully completing the profile, you will be able to buy products. Then go back and click buy now.

The purchases are also protected via OTPs so you will have to enter the OTP while proceeding to the payment page.

Once you verify the OTP, you will be redirected to a payment page where you will see your shipping details and a pay button.

The screenshot shows a web interface for 'infikart'. At the top is a dark blue header with the text 'infikart' in white. Below the header is a light gray background. In the center, there is a dark blue rounded rectangle containing white text. The text is organized as follows: 'Shipping Information' is at the top. Below it, the following details are listed: 'Name: Salman', 'Email: giyej91810@idrct.com', 'Contact Number: 9238923020', 'Address: Dwarka New delhi', and 'Order Amount: 89000'. At the bottom of this rectangle is a dark blue button with the word 'Pay' in white.

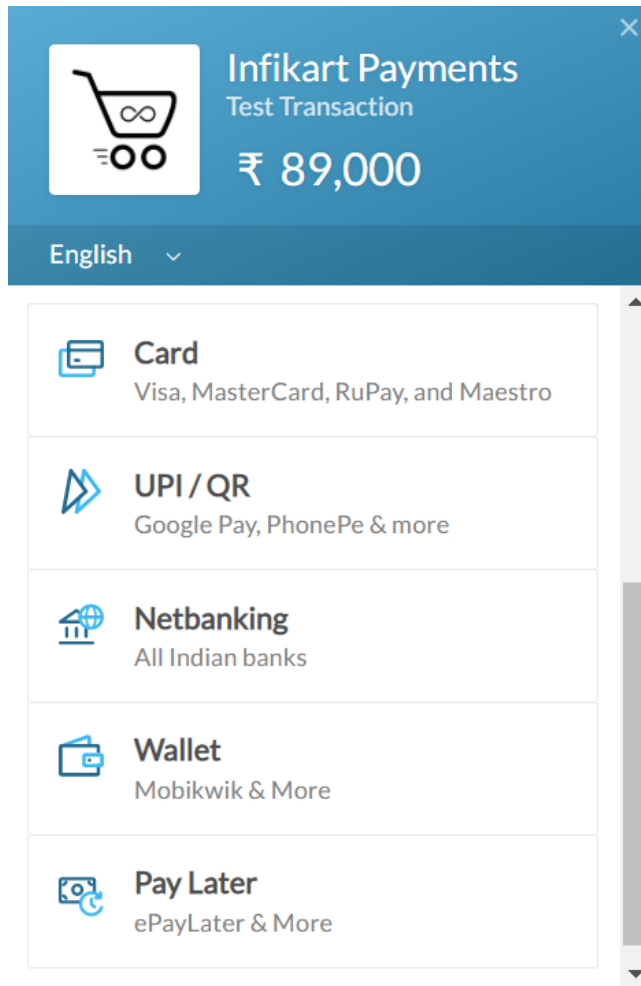

infikart

Shipping Information

Name: Salman  
Email: giyej91810@idrct.com  
Contact Number: 9238923020  
Address: Dwarka New delhi  
Order Amount: 89000

Pay

Click on the pay button, it will open the Razorpay payment window. From there you can mimic the payment process and enter payment details to pay for the product. You can use any payment method of your choice but it would be simpler for you if you use the net banking method.

Once you pay, a window will appear asking for accepting or rejecting the payment. This mimics the bank side. You can choose either option to test the purchase.

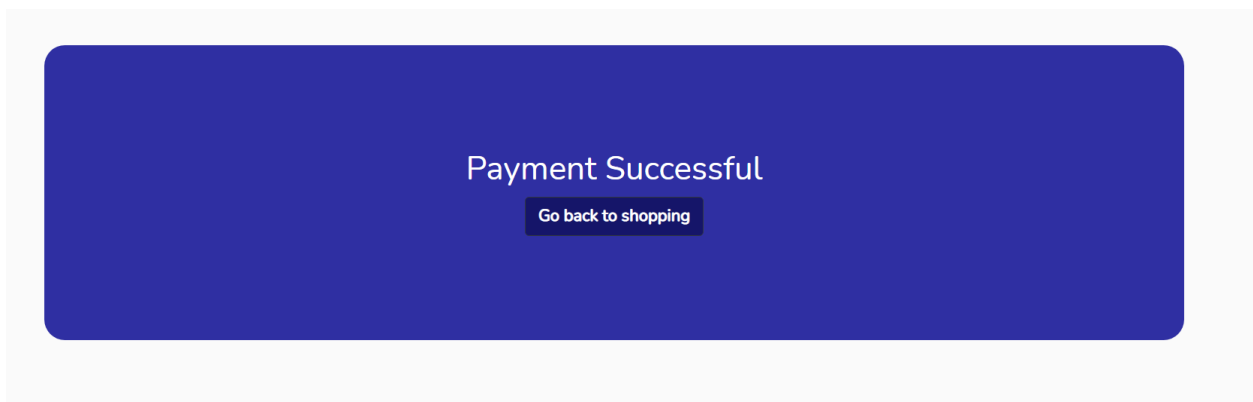

Welcome to Razorpay Software Private Ltd Bank

This is just a demo bank page.

You can choose whether to make this payment successful or not:

Success	Failure
---------	---------

If you do failure, the payment will be rejected and if you do succeed the payment will be accepted and you will be redirected to the payment success page.

You can also see the payment status in your profile.  
For rejection, you will see the status as rejected

## Recent Orders

Order ID	Product	Price	Payment Status
order_IKKWvy1hXWgb1y	Apple Iphone 13	₹ 89000	Rejected

For Acceptance, you will see the status as Accepted

## Recent Orders

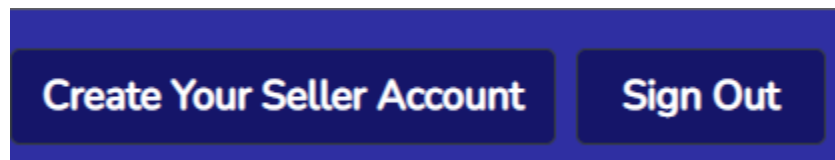

Order ID	Product	Price	Payment Status
order_IKKWvy1hXWgb1y	Apple Iphone 13	₹ 89000	Accepted

And if you neither accept nor reject the status will be pending/canceled. Or you close the payment page.

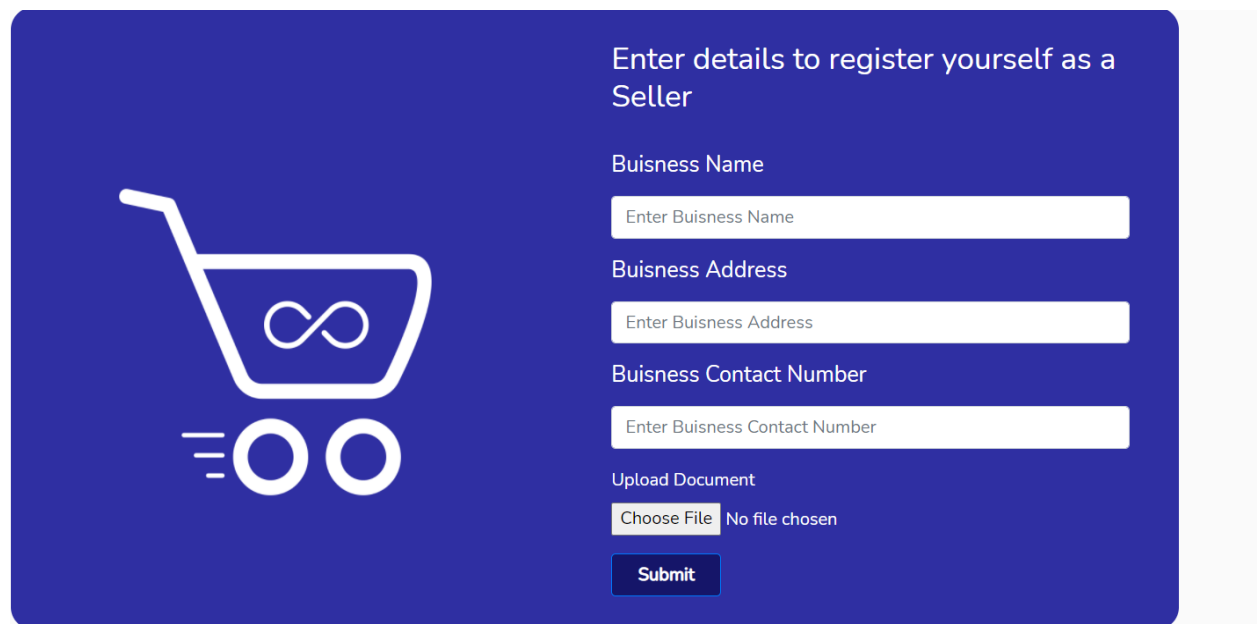

## Seller Account

Now to create a seller account,

Go to <https://192.168.2.245/products/all> and click on create a seller account.

Fill in the registration details and upload a pdf file for the license.

A registration form for a seller account. On the left is a white icon of a shopping cart with an infinity symbol inside. To the right of the icon, the text 'Enter details to register yourself as a Seller' is displayed. Below this are four input fields: 'Business Name' (with placeholder 'Enter Business Name'), 'Business Address' (with placeholder 'Enter Business Address'), 'Business Contact Number' (with placeholder 'Enter Business Contact Number'), and 'Upload Document' (with a 'Choose File' button and the text 'No file chosen'). At the bottom right is a 'Submit' button.

Enter details to register yourself as a Seller

Business Name

Enter Business Name

Business Address

Enter Business Address

Business Contact Number

Enter Business Contact Number

Upload Document

Choose File No file chosen

Submit

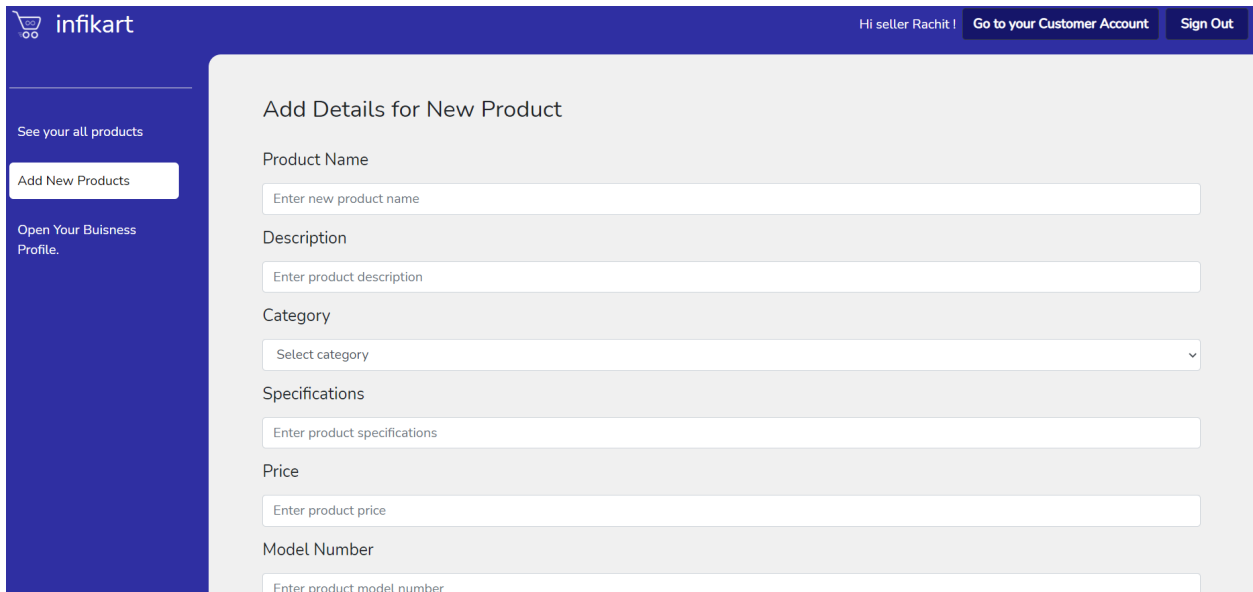

After that, you will see a page like this if you try to open your seller account.

Your request for becoming a seller is still pending. Please wait for our officials to verify your documents.

[Continue Shopping](#)

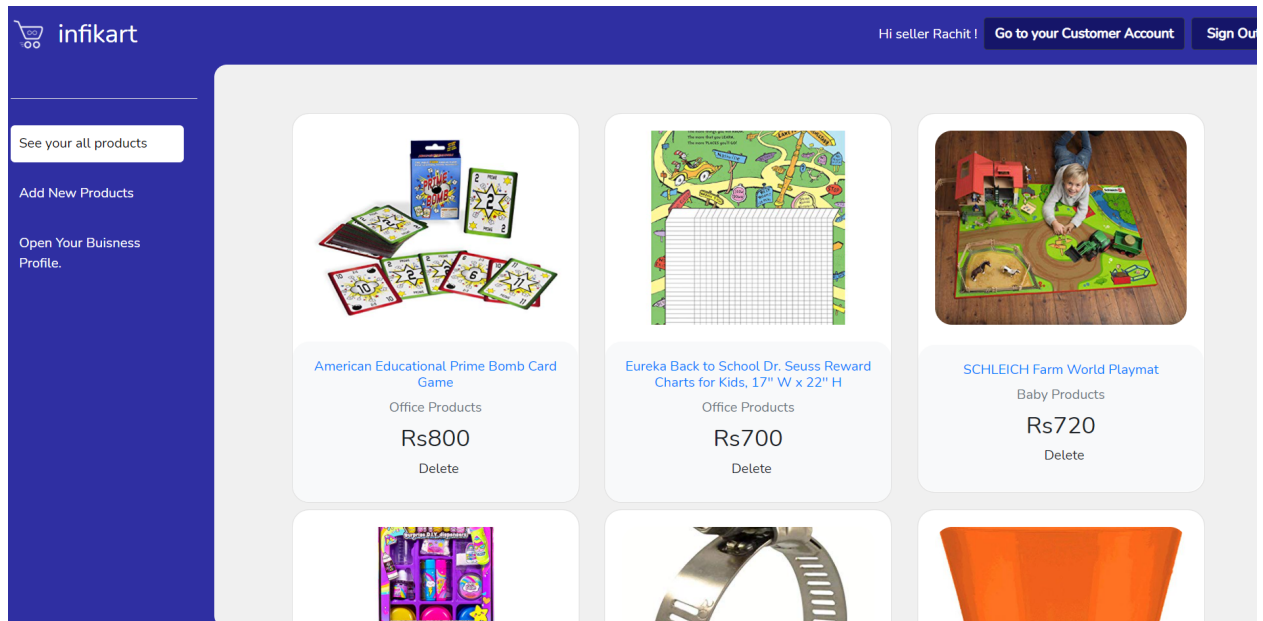

Note that You will be able to access the seller account only after the admin approves your license.

After the account is approved by the admin, you can add your products by clicking on “Add New Products “.

The screenshot displays the 'infikart' seller dashboard. The top navigation bar includes the 'infikart' logo, a user greeting 'Hi seller Rachit !', and links for 'Go to your Customer Account' and 'Sign Out'. A left sidebar contains links for 'See your all products', 'Add New Products' (highlighted), and 'Open Your Buisness Profile.'. The main content area is titled 'Add Details for New Product' and contains a form with the following fields: 'Product Name' (text input), 'Description' (text input), 'Category' (dropdown menu), 'Specifications' (text input), 'Price' (text input), and 'Model Number' (text input). Each input field has a placeholder text indicating what to enter.

You can see your products through the panel on the left, and also you can delete your listed products if you want.

To log in to an admin account that can approve and reject sellers, or can block users.

Go to [https://192.168.2.245/admin\\_login\\_view/](https://192.168.2.245/admin_login_view/)

Enter email - [infikart.info@gmail.com](mailto:infikart.info@gmail.com)

Password - admin@infiapp

The login form is on a dark blue background. On the left is a white icon of a shopping cart with an infinity symbol inside. To the right of the icon, the text reads: "\*Wrong Email or password. Make sure you are using admin credentials". Below this is the heading "Log in as Admin". The form includes two input fields: "Email address" with the value "infikart.info@gmail.com" and "Password" with masked characters ".....". A "Submit" button is located below the password field.

Here you can see the list of pending sellers who want to get their license approved. You can decide whether to approve or reject by looking at the submitted document.

Block

Once a buyer is blocked, he/she will not be able to access the catalog of products and will not be able to place orders. The blocked buyer can still see and update his profile but he can't purchase anything. If the admin unblocks the buyer then he/she will get the purchase rights back.

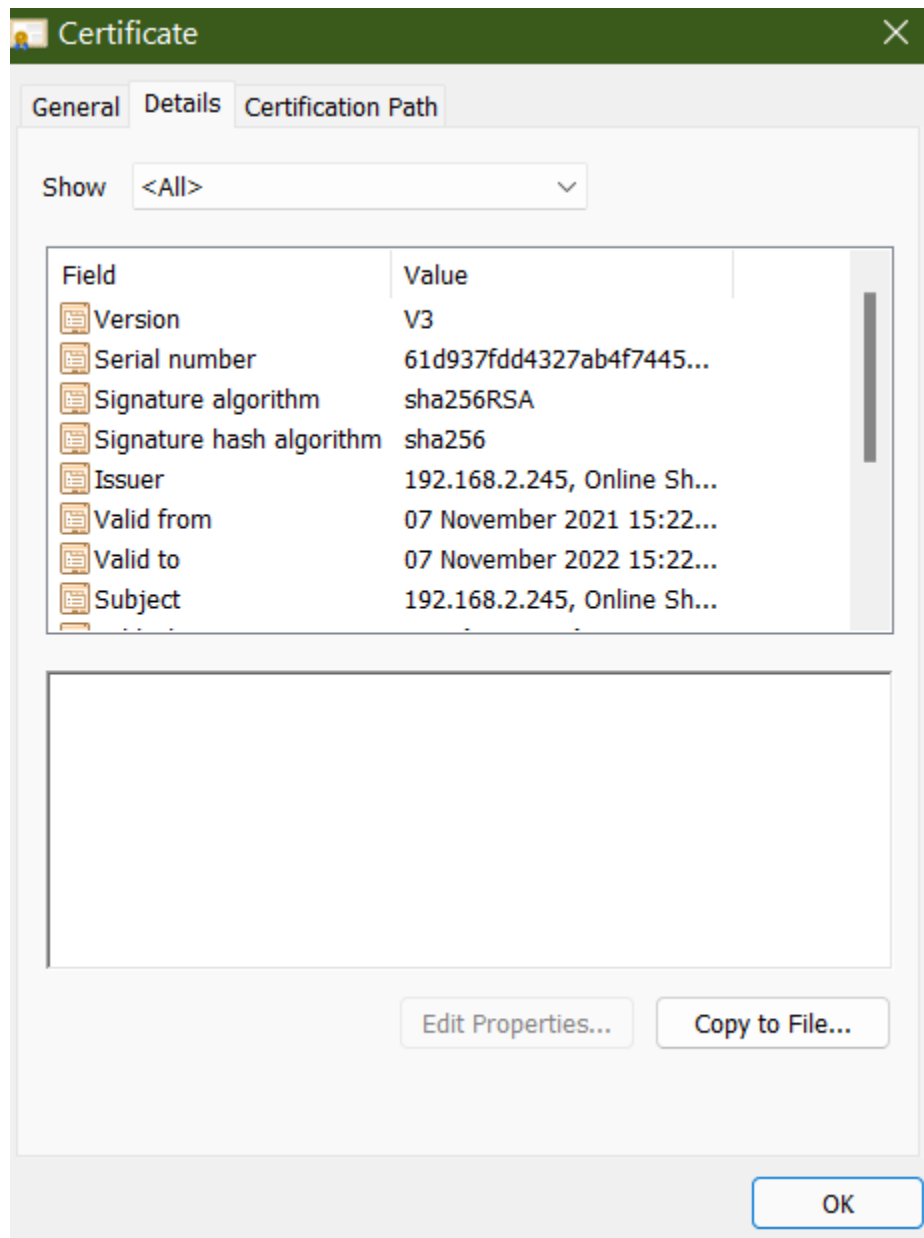

## Installing certificates [ OPTIONAL STEP ]

Initially, when you connect to the website it will show a warning. Go to advanced and proceed to the IP mentioned.

In the link bar, you will see a “Not Secure” tag like this

Click on it and download the certificate given.

Save the certificate and then go to the settings of your browser and then manage certificates. Then import the downloaded certificate from trusted root certification authorities and import the certificate. Relaunch your browser then you will see the security tag in the link bar.
